Attached for your review please find the Draft Toxicologist Memos for the 4 locations that were re-sampled for metals analysis only in May 2012.

The memos were prepared by Dawn loven, Region 3 toxicologist, based on her review of the sampling data. The tox data summary reports and residential data summary reports were provided to the environmental unit in a previous e-mail on 6/26/12.

Please review and provide any comments you may have as soon as possible. EPA expects to provide the final tox memos to residents along with their sampling results in mid-July. Feel free to contact me with any questions and/or if you need additional info.

Thank you - Kelley
